Subject: LPRSA - Follow up convo with NJDEP - just a heads up

Hey all –

I sent a calendar hold for Friday, January 26th as NJDEP believes that will be the date they can meet. As an FYI, they are looking to invite John Wolfe to that meeting. He has yet to see the CPG's interim remedy proposal material so NJDEP will provide him the CPG's CSTAG presentation.

I relayed to the state that since Ed and John go way back that it would be no concern for me if it saved some time to have John call Ed directly to get a brief overview in model speak.

A draft comment set should come in advance of that meeting to help guide our presentation. The state also said they would benefit from an understanding of where CPG is with the bioaccumulation model and what our concerns are. Since this would be a small component of such a meeting, I don't think we need Johnathon Clough. At most, it would be a quick participation in a webinar, if we even go that route.

Thanks,
Jn
